★ EAST COAST ORGANICS ★

We are a wholesale distributor of products and supplies that support sustainable land management. By blending the modern theories of sustainable land management with ancient agricultural traditions, East Coast Organics has developed a line of products and services that will help your plants and help the planet.

We offer: Organic fertilizers and bio-stimulants, custom soil mixing, consultation, compost tea brewers, and premium grade soil amendments.

SUSTAINABLE VALUES

We are at a stage in horticulture and agriculture where the flagrant misuse of toxic products on our plants and soil has become standard amongst professionals.

Our mission is to reduce the amount of petro chemical and toxic products being used on our land. Through educating professionals about the benefits that non toxic products can provide, we hope to aid in the accomplishment of our mission.
